THE GREAT NEW ZEALAND BIRDING GUIDE

Your guide to the best birding tours, accommodation and locations in New Zealand.

www.birdingnz.co.nz
When the New Zealand land mass separated from Gondwanaland 85 million years ago, an odd assemblage had gathered. This assemblage was odd not just for what was present, but what was absent. This has led to the New Zealand avifauna being truly weird and wonderful, and having a very high level of endemism (currently around 28% of bird species only breed in New Zealand). To name a few we have an alpine parrot (kea), a shorebird with a beak bent to one side (wrybill), an iconic flightless and nocturnal bird with nostrils at the end of its beak (kiwi), and a multitude of seabird species (94 species breed in the NZ region, with nearly 40% being endemic) making it the seabird capital of the World).

It's what was missing that seems to have really shaped our birds, with an apparent lack of land mammals except for three species of bats. This meant that birds were able to proliferate and occupy niches normally occupied by furry counterparts. With the Southern Ocean lapping our shores, the islands of New Zealand have provided a nesting site for hordes of seabirds for millions of years.

Today there are six bird families that are endemic to New Zealand, the Kiwi (Apterygidae), the New Zealand parrots (Strigopoidea), the New Zealand wrens (Acanthisittidae), the New Zealand wattlebirds (Calleaidae), the Stitchbird (Notiomystidae), and the New Zealand creepers (Mohouidae). These six families and the seabirds often form a focus for overseas birders visiting New Zealand. With a short visit to our shores it is possible to see representatives of all six plus a good assemblage of seabirds. For many a trip to New Zealand is a once in a lifetime opportunity, and whether self-driving or an organised tour, it is possible to see many more.

With breath-taking scenery as a backdrop, there is no better way to see New Zealand than on a birding holiday or adventure. You are sure to see some of our premier scenery and visit many places regular tourists will not see.

Planning ahead is advised as accommodation and activities can often be booked well in advance. With the help of our New Zealand Birding Directory we look forward to making your visit a special one.
General Information
New Zealand’s spectacular landscape includes vast mountain ranges, lakes, fiords, lush temperate rainforests and sweeping coastlines.
Comparable in size to Japan, New Zealand’s population is only just over 4.8 million people.

New Zealand Seasons
New Zealand weather can change unexpectedly. You should be prepared for sudden changes in weather and temperature if you’re going hiking, especially in alpine areas.
Winter temperatures can be below freezing with Summer reaching highs of over 35˚C.

For information on planning a New Zealand holiday visit www.newzealand.com

International calling
Please note that all phone numbers listed are New Zealand local numbers.
If you wish to call a New Zealand number from an overseas location New Zealand’s country code is +64. 0800 phone numbers are free from within New Zealand only.
To find the location of each operator, please refer to the Location Map at back of brochure.
We are experienced and passionate birders, with unrivalled first-hand knowledge of New Zealand’s birds. As the re-discoverers of the supposedly extinct NZ storm-petrel, we know New Zealand and its birds inside out. Whether its endemic landbirds, shorebirds or pelagic seabirding – we can do it. We offer scheduled tours of 3-weeks duration, but are happy to tailor trips to your own specification and custom-build a trip for you.

We also offer pelagic trips around the country (inc the Hauraki Gulf) and if you are a photographer then a photographic tour with Brent (one of NZ’s top bird photographers) might be for you. Or we can save you money and time by producing an itinerary and site information for the independent traveller. Just tell us what you want to do and we will make it happen!

Great Birds – Real Birders.
For over two decades Mark Hanger and Nature Quest New Zealand have been designing and leading birding trips in New Zealand.

With us you will visit a diverse range of habitats with an emphasis on the key endemic birds of the region. Visits to several coastal sites allow you to experience the huge variety of marine birds and mammals of New Zealand. We can also take you to many places of great scenic beauty on both North and South islands, from stunning Milford Sound to the biodiversity “hotspot” of Kaikoura and the rugged and remote, Stewart Island.

We provide expert local advice and guiding. Let us help you design your itinerary to ensure you target exactly what you want to see and do. With our help we can ensure you get to the right places at the right time to maximize your birding success.

We can ensure you view the widest possible array of species, at your pace and within your time frame, all while being guided by the finest birding leaders in New Zealand.

To discover New Zealand’s unique bird-life and finest natural wonderlands, contact the specialists in custom designed birding tours for small groups, couples and individuals.

Birders Rest offers quality accommodation in attractive riverside garden surroundings, coupled with trips to see local birds.

We are passionate about New Zealand native birds and our speciality is the North Island Brown Kiwi. The Kiwi is traditionally a bird of dense native forest and is notoriously difficult to see. Some Kiwi sites near us are areas of open paddocks with swamps with more limited bush, and in this habitat sightings are more reliable. We see kiwi on nearly all our trips.

Other birds we can find include the morepork which can be seen in our garden before dusk, the skulking fernbird in nearby swamps, tomtit, New Zealand dotterel, royal spoonbill, New Zealand dabchick, New Zealand pipit, wrybill (in season), and occasionally Australasian bittern and spotless crake.

We have run many day pelagic trips from Whangaroa Harbour which have so far produced 29 tubenose species including 6 species of albatross, New Zealand storm petrel, Cook’s, Pycroft’s, black-winged, grey-faced and white-naped petrels; also grey ternlets and brown & South Polar skuas.

We are able to assist with birding itineraries in other parts of New Zealand and sites between Auckland and here.

We have 2 self-contained units attached to the house. These have ensuite bathroom & kitchenette and access to the deck, garden and swimming pool. Please contact us for prices and availability.

Check our website www.birdersrest.com for details of our tours to North Peru and other places abroad.
Chosen by the BBC to film New Zealand’s rare birdlife, Russell - Orongo Bay Holiday Park offers you the unique opportunity to see and hear north island weka and kiwi in their natural environment. Itineraries and guided walks by arrangement.

Accommodation options include privately situated self contained bungalows and cabins or Lodge rooms with shared amenities for solo travellers through to groups. The accommodation features decks with outdoor seating to make the most of indoor/outdoor living in a sunny climate and to interact with the abundant birdlife. Choose your own spacious powered or unpowered camp site and enjoy facilities which include a swimming pool, playground, BBQ’s, wood fired pizza oven, campfire and a free information and cruise/tour booking service. Adjacent to the Bay of Islands walkway and conveniently located to Russell village, Twin Coast Rail Trail (bikes for hire) boattrips, beaches, wineries and the Cape Brett Track.
Tawharanui is a significant conservation success story with 18 endemic birds, many threatened, being reintroduced in addition to the many more endemic and native birds that are now thriving and breeding.

Habitat Tours offer two tours to Tawharanui, a full day tour and a day/night tour where guests have the opportunity to see some of New Zealand’s nocturnal birdlife including the North Island brown kiwi, morepork and pateke (brown teal). Personalised tours are available on request.

The Waitakere Ranges tour, although not as prolific with bird life, gives the visitor some different opportunities for bird watching with tomtits, fernbird and pipit; spring and summer also offer the opportunity to visit a gannet colony.

In addition to our guided tours we provide our guests with delicious homemade picnic lunches and dinners.

With forty three species recorded here, Pukorokoro Miranda - on the south west corner of the Firth of Thames, is one of the best wader sites in New Zealand.

It is the best place for large flocks of wrybill – birds are here all year round, but between December and July over 2000, (40 % of the population) are present. Other endemics include New Zealand dotterel, black-billed gull, variable and pied oystercatchers. The 8500 ha intertidal area on the Firth also attract large numbers of Arctic tundra-breeding species – particularly bar-tailed godwit, red knot, ruddy turnstone, Pacific golden plover, sharp-tailed sandpiper and red-necked stint. Pukorokoro Miranda Shorebird centre is an information and education centre, open 9am to 5pm 7 days a week. We have accommodation – self contained units or bunk dormitories. Visit us for interpretive displays and recent sightings. In our shop you will find an extensive range of natural history books – one of the most comprehensive collections in New Zealand.
Moutohorā (Whale Island) birding tour

Moutohorā (Whale Island) is one of New Zealand’s little known treasures and home to a number of New Zealand’s rare and endangered plants, birds and reptiles.

Sitting only 9 kilometres off the coast of Whakatane the journey to Moutohorā is just a short 15 minute boat ride aboard our comfortable catamaran “The Moutohorā Cat.”

The fully guided tour of the island allows visitors to learn about the flora and fauna and the conservation effort focused on Moutohorā for the past 50 years. The tour provides the opportunity to see tieke (saddleback), kakariki (red crowned parakeet), pied shag, variable oyster catcher, bellbird, tui, grey warbler, shining cuckoo, NZ dotterel, little blue penguin and many species of sea bird.

The island is also home to the world’s largest colony of grey-faced petrel. It is a sanctuary for the North Island brown kiwi and during our tour we will remotely monitor some of the birds that are fitted with transmitters.

Our walk includes a visit to the island’s saddle for spectacular views out to White Island and a visit to Sulphur Bay where there is a chance to dig your own hot pool on the beach where geothermal hot springs come up through the sand.

Due to the precious nature of this pest free island, access is highly restricted to the general public and the only way to visit the island is with a Department of Conservation approved concessionaire. We are privileged to be allowed to take a small number of visitors to the island each day.

Our Moutohorā /Whale Island tours operate daily subject to weather conditions and demand.
Birding Experiences from 1-8 days

Foris eco-tours’ fantastic birding trips are all about you. We like to have a conversation with our clients about what species they would like to see. We offer shore bird and forest bird experiences depending on your preference.

Our forest birdwatching experiences are set in Whirinaki Forest among massive 1000-year-old trees. Birds include: kaka (North Island parrot), yellow-crowned kakariki (parakeet), toutouwai (North Island robin), karearea (NZ falcon), whio (blue duck), titipounamu (rifleman), koekoea (long tailed cuckoo), miromiro (tomtit), keruru (wood pigeon), tui and more.

Our shore bird sites are spread around Bay of Plenty sites and we aim to see species including: NZ dotterels, Bar-tailed godwits, Royal Spoonbills, white fronted terns, pied stilts, various cormorants and many more.

Trips leave Rotorua/Tauranga at 9.00am daily, returning around 4pm. Trips are suitable for anyone with moderate fitness. Lunch, binoculars, spotting scope and transport included.
Out in the Styx Guesthouse is a unique, peaceful, rural retreat nestled in the heart of the Waikato with the 3,400 hectare Maungatautari wildlife sanctuary literally on its doorstep.

Our 3½ star Qualmark rated accommodation includes a range of options from our themed ensuite rooms to our 15 bed bunkhouse – all with views of Maungatautari. Join us for one of our locally famous delicious dinners, a warm winter fire and an informative chat with your convivial hosts.

Day and night guided walks on Maungatautari are available by arrangement with proceeds going to the Maungatautari Ecological Island Trust. Tomtits, kaka, fantails and kereru abound on the mountain during the day and at night the call of kiwi and moreporks can be heard from the comfort of your spa. Maungatautari has the only pair of breeding takahe on mainland North Island New Zealand.

Enjoy the birdlife from the metalled tracks in the southern enclosure, along the two hour trek to Pukeatua peak, or via the 6 hour tramp across the mountain.

Out in the Styx Guesthouse is also a great base for trips in and around the Waikato. Within one and a half hours you can visit the Whangamarino wetland or Miranda shorebird sanctuary to the north, Waitomo and nearby Rurakuri walk to the south, or Rotorua to the east.

Bookings essential.
Located on the banks of the Whanganui and Retaruke Rivers, and surrounded by Whanganui National Park, Blue Duck Station is steeped in Maori and European history, dramatic landscape, breath-taking scenery, an abundance of outdoor activities and the most authentic and passionate true kiwi hosts you will meet during your time in New Zealand.

Set amongst a 5000 acre working sheep and beef farm and surrounded by native forest, birdlife and beautiful rivers, there are 5 lodges to choose from all with their own character, but above all they are fantastic places to relax in.

Blue Duck Station is involved in several conservation, biodiversity and history preservation projects including surveying and protecting blue ducks, kiwi, native bats and weta as well as restoring some of the history that still exists on Blue Duck Station. Our core values are based on conservation of our endangered wildlife, our forests and rivers, and preserving the historic buildings, roads and tales of the area.

Blue Duck Station is a destination with everything to offer so come on in to see it for yourselves but above all come on in to have some fun! See you soon!
Established in 1952, Gannet Beach Adventures has a long history of providing tours on a spectacular stretch of the Hawke’s Bay coastline, from Clifton to Cape Kidnappers.

This unique & fun eco-experience tour involves travel with local experienced guides by vintage tractors and trailers on a comfortable four-hour adventure to the largest mainland gannet colony in the world.

At the Black Reef colony visitors can almost touch the gannets in their natural environment, without even stepping off the trailer. An approximate 90 minute break at Cape Kidnappers itself enables visitors ample time to enjoy a scenic walk to the Plateau colony, where the Saddle & Whalebone Reef colonies can also be seen.

Depending on the time of the season, visitors can witness new-born chicks through to 4-month olds preparing for their first ever flight to Australia.

Season runs from late September to the end of April and is suitable for all age groups with moderate fitness levels.

We are a Department of Conservation Concessionaire.
Positioned on 942 hectares of ancient podocarp (hardwood) forest, Pukaha is home to many endangered species including; the takahe, kokako, kaka and our national icon, the kiwi. You will also see the prehistoric tuatara and monster eels.

Located 30kms north of Masterton on State Highway 2, we welcome you to our award-winning interactive displays in our beautiful visitor centre.

Our nocturnal kiwi house allows visitors to view kiwi during the day.

During breeding season, our kiwi house also enables visitors to see behind the scenes of our kiwi nursery.

You can take in a walk to the summit on the Loop Walk and enjoy the breathtaking view from the top, find out some fascinating facts when you take in the Eel Feed at 1.30pm and enjoy the antics of the kaka at their feed at 3pm daily.

Pukaha Mount Bruce National Wildlife Centre
State Highway 2, 30km North of Masterton, New Zealand
Phone (06) 375 8004
Email info@pukaha.org.nz
Web www.pukaha.org.nz

Our cafe provides beautifully prepared food and hot and cold refreshments.
Experience the diversity of our native flora and fauna in this stunning, easily accessible reserve. Ngā Manu covers an area of 14 hectares and provides visitors with an opportunity to view and have close encounters with a large range of native plants, Tuatara, native birds and the iconic Silver Fern.

A mix of bushwalks, open areas, observation points, walk-in and protected aviaries along with the nocturnal house containing two North Island Brown Kiwi provide you with the opportunity to see a range of New Zealand’s unique flora and fauna. Stand underneath New Zealand’s tallest tree species, ‘Kahikatea’ in the protected Key Native Ecosystem of remnant coastal swamp forest which once covered much of the region. Some of these majestic specimens are estimated to be 300 to 400 years old.

Ngā Manu Nature Reserve is well suited to eco-tourism, catering for groups and individuals, with a small cottage that overlooks the main pond, providing a unique short stay-over option.

Ngā Manu is a charitable trust and your visit directly supports education, research and conservation programmes.

Bird feed out tour 11am.
Eel feeding at 2pm daily.

Standard cost of entry (2017)
$18 adults, $8 child,
Family $38
SuperGold Card $10
Kāpiti Island is a world-renowned bird sanctuary and one of New Zealand’s only publically (limited) accessible nature reserves. It is blessed with an abundance of native and endangered species like takahē, kākā, kōkako, stitchbird and saddleback.

**Kāpiti Island Nature Tours provides your best chance of seeing little spotted kiwi in the wild.**

Other birds include weka, kererū, NZ robin, whitehead, kākāriki and ruru. Keen ‘birders’ will have great access and interaction with the widest range of species in thriving regenerating forest, all at one easily accessible site.

Overnight kiwi spotting also provides opportunities for great dawn and dusk birding. Full day tour or overnight stay - both offer terrific birding.
Discover rare and endangered wildlife living wild in this Wellington valley as nature intended. This 225ha sanctuary is home to some of New Zealand’s most remarkable native species, such as little spotted kiwi, saddleback, kaka, tuatara, kakariki, hihi, and takahe, all living freely protected by a predator-proof fence.

Make the most of your visit to ZEALANDIA with a guided tour and enjoy all the sights and sounds of the forest with an experienced guide who will lead you through the sanctuary valley. Soak up the beautiful scenery while learning more about New Zealand’s unique ecological history. Guided tours provide visitors with insights into the native bird, reptile and plant species that are thriving within the predator proof sanctuary. Tours can be enjoyed during the day, twilight and at night, and each provides a very distinct and unforgettable experience.

The world’s first fully-fenced urban ecosanctuary, with an extraordinary 500-year vision to restore a Wellington valley’s forest and freshwater ecosystems as closely as possible to their pre-human state.
Farewell Spit is a nature reserve and a wetland of international importance right on the northern tip of the South Island. The Farewell Spit tour began as the mail run to the Lighthouse keepers at the tip of this 35km sand bar. Farewell Spit tours have the only permit to visit the gannet colony 2km beyond the Lighthouse and between September and April run tours to observe the large numbers of godwits, knots and other Arctic waders roosting at high tide.

Our hand picked local guides have a wealth of knowledge to share and we welcome visitors from all over the world. Many of whom return time after time – just like the godwits.

Set in 50 acres of tranquil wilderness with 5km of bush tracks, The Resurgence is surrounded by birds. A relaxed and friendly Lodge that’s the perfect base for exploring the Nelson Region.

Boutique Lodge Rooms or stand-alone Bush Suites on Dinner B&B or self-contained basis. Dinner is a highlight with 4-course farm-to-table dining showcasing Nelson wines. The Resurgence is the closest 5-star lodge to Abel Tasman National Park and also offers easy day trips to Golden Bay, Kahurangi National Park or Nelson. Your hosts will help you plan activities such as kayaking, hiking, cycling or winery & art tours. Guided birding tours to mountain, coastal and estuarine habitats.

This child-free, smoke free resort with pool, spa and massage therapies is accessible by road, 45 minutes from Nelson airport. Every booking contributes to Friends of Flora Community Conservation Group.

Voted “one of the world’s 25 leading luxury eco-lodges” by National Geographic Traveler.
For a Specialized Bird Watchers Expedition, we offer a custom tour focused on the Orange Fronted Kakariki, NZ rarest bush bird (300) and the King shag (800). This tour caters to all the top birding providers in NZ and has 99.9% success rate for King Shags. Orange fronted Kakariki are easily accessible with 85% success rate. Contact us by email to discuss your individual requirements.

The King shag, found only in the Marlborough Sounds, and the South Island saddleback are two rare birds that can be seen when you also take the Wildlife Tour which is a general tour. This 4 hour boat tour in magnificent Queen Charlotte Sound will take you to Motuara Island bird sanctuary for a guided bush walk. Here, you will have close encounters with South Island robins, bellbirds, fantails, wood pigeons, blue penguins, and South Island saddleback.

You can also hear about the Department of Conservation’s endangered species program on the island where we have Rowi Kiwis. A variety of seabirds can also be seen throughout the year - fluttering shearwaters, Australasian gannets and spotted and pied shags are seen on most tours. Frequent sightings of reef and white-faced herons and variable oystercatchers, and occasional sightings of New Zealand Falcons are sure to please.

Fantastic scenery, wonderful wildlife (including the endemic Hector’s dolphins), great photo opportunities, and personal service all combine to give you an unforgettable experience in the beautiful Queen Charlotte Sound.
Imagine journeying through some of the most deserted and exposed landscapes in the Outer Queen Charlotte Sounds...

Experience an exquisite sunrise, with a ringing background of bird call, at one of the unique Sanctuary Islands, and commune with the animal and marine life that calls the Marlborough Sounds their home. Join one of our guided tours to explore this unique place.

The True Sunrise/Dawn Chorus Overnight Tour is the only tour available in Marlborough that can give you the experience of Motuara Island and its special birdlife at dawn. Also a chance to see some unique seabirds, such as the King Shag, found only in the Marlborough Sounds.

Learn about Motuara Island and enjoy the special wildlife it has, saddlebacks (tieke), NZ robin (toutouwai), bellbird (korimako), tui, and the NZ pigeon (kereru).

We look forward to sharing our beautiful, remote and secret world with you.

Uncharted Wilderness Tours

Lochmara Lodge Wildlife Recovery and Arts Centre is set on the tranquil shores of the Queen Charlotte Sound.

We offer accommodation and Marlborough Sounds art and nature day trips for trampers, nature lovers, and families. Our Wildlife Recovery and Arts Centre is a facility for rehabilitating injured wildlife and we have several captive breeding programmes in place.

We aim to provide a unique, relaxing and inspiring experience, whether you can visit for a few hours or a few days. At Lochmara you can hike to the Queen Charlotte Track, kayak the bay, or explore the art and wildlife amidst the native bush.

Join us for a guided tour of our Underwater Observatory.

Lochmara Lodge is easily accessible by our own water taxi from Picton.
Kaikoura is regarded as the best place in New Zealand to see albatross and a range of other seabirds including petrels, shearwaters, terns, shags, and penguins.

The number of different seabird species which can be viewed in one location within close proximity to shore, has established Kaikoura as an exciting and sought after birding location.

Albatross Encounter tours operate all year round and are 2.5 hours in duration. If a longer tour is preferred this can be arranged with prior notice.

Species sightings vary slightly between summer and winter but irrespective of the time year, the diversity of species sighted will not disappoint.

Check out the sightings info on our website for more information.
Okari Estuary runs along the front of the farm, home to many types of wading and sea birds. Migratory birds also stopover to feed on the food rich tidal flats.

On the northern boundary of the farm, the Okari River winds its way up through native bush. Borrow a kayak, or walk at low tide, and see all the forest birds, the shags and herons fishing the river.

The farm backs onto one of the few remaining patches of coastal Northern Rata pod carp forest that is left in the area.

Walk the many farms tracks or venture into the bush and see the many varieties of birds that can be seen all year round.

Fantails and robins will keep you company. Weka are plentiful all over the farm and will share your accommodation if you leave the door open. At night you may hear kiwi call in the bush behind the house.

Your cottage has stunning views over the Tasman Sea, back dropped by the Paparoa Ranges.

Self-contained accommodation, situated 15mins from Westport. Secluded, at the end of a private no exit road, on a 300 acre working dry stock farm.

If you want to experience the diversity of New Zealand bird life, come visit!

Okari Estuary - Accommodation

Wilderness Lodge Arthur’s Pass is a 24 room nature Lodge nestled in Mountain beech forest on its own 3,000 hectare nature reserve/merino sheep station.

Located in the heart of the Southern Alps the Lodge offers warm hospitality, stylish accommodation, magnificent mountain views and gourmet meals and wine. Each day we offer a variety of shorter and full day naturalist guided walks including canoeing, bird watching and farm trips. Special birdlife includes: kea, NZ falcon, wrybill plover, rifleman, NZ pipit, southern (great) crested grebe and rock wren (total 45 bird species in area).
Established by birders for birders, we have been providing unique travel opportunities for bird enthusiasts since 1985.

Our long association with the Antarctic and Sub-Antarctic Islands means that not only do we know them intimately, but it also means we have permits and permissions that are unique to our company earned through an impeccable record of responsible expeditions.

Travel aboard our own fully ice-strengthened polar research vessel, ‘Spirit of Enderby’, accommodating just 50 passengers. She provides keen pelagic birders with opportunities that are not available anywhere else. We use the same vessel for our expeditions to the South Pacific Islands and the Eastern shores of Russia.

From the frozen seas of the Arctic and Antarctic to the pelagic hotspots of the Sub-Antarctic islands, Heritage Expeditions offers a combination of years of experience, knowledgeable staff and a passion for and commitment to conservation.
It is the main feeding ground for the kotuku (great white heron), as well as many other species including the royal spoonbill, pied stilts, cormorants and shags, white-faced herons, Australasian bitterns and many forest birds including tuis, bellbirds, fernbirds, kingfishers, NZ pigeon (kereru) and tomtits.

The rainforest waterways are a diverse mix of salt and fresh water plants and magnificent rimu and kahikatea trees. Different seasons offer the chance to see flowering rata, orchids, kamahi, manuka, flax, native jasmine and clematis.

Daily departures begin with the Early Bird Tour at 7:30am (reservations required) followed by 2 Hour Nature Tours at 9 & 11:30am and 1 Hour Sightseeing Tour at 2.30pm. Prices from $50 - $90 per person, group and children's rates available.

Explore the Okarito Lagoon with us and witness the magnificent diversity of a landscape that sweeps from sea to mountains across New Zealand’s largest unmodified wetland area.
Okarito Lagoon covers over 3240 hectares of shallow open water and is well known for its outstanding avifauna (over 70 species have been recorded here). The lagoon is a primary feeding ground for kotuku (white heron) and they can be seen on the lagoon all year round. Other species include royal spoonbills, bar-tailed godwits, fernbirds and Australasian bitterns. The lagoon is bordered by the Okarito Kiwi Sanctuary, home to the rare Okarito brown kiwi (rowi).

Paddle the gentle river channels of the Okarito River delta that take you deep into virgin rainforest. A clear day offers magnificent views of Mount Cook and the Southern Alps.

Kayaking on Okarito Lagoon, NZ’s largest unmodified wetland. We offer Guided Kayaking Tours and Freedom Rental Kayaking (unguided).
A scenic boat ride down the Waitangi Taona River, into the Waitangi Roto Nature Reserve will let you experience one of the most magical occurrences in today’s world, the beautiful white heron (kotuku) nesting in its natural habitat... You will only see this in the Waitangi Roto Nature reserve... the only place in New Zealand!

The tour departs from our office in Whataroa and takes approximately 2 1/2 hours. It consists of a short drive to connect with our jet-boat for a gentle 20 minute scenic cruise into the Waitangiroto Nature Reserve. In the reserve we disembark for a short walk through ancient Kahikatea rainforest to our purpose built viewing hide to observe the magnificent White Heron or Kotuku in their natural nesting environment. The Royal Spoonbill and the Little Shag also share this special area and all can easily be seen from our hide.

Please Note: There is no access from Okarito.

Tours: Tours operate under a Department of Conservation concession. Entry by permit only. All tours are accompanied by a guide. Wet weather gear provided.

Accommodation: Motels, studio units and cabins. Peaceful and Affordable. Put your feet up in Whataroa. Use us as a base. No hustle and bustle... Franz Josef Glacier only 20 minutes away.

Exclusive Use: We have exclusive access to the white heron nesting site. No kayaks permitted in this area.
Wilderness Lodge Lake Moeraki is a 28 room Nature Lodge in the untouched rainforest of the South West New Zealand World Heritage Area.

Located on the banks of the Moeraki River, close to the lake and the Tasman seacoast, the Lodge offers luxurious comfort and views, gourmet food and wines, warm hospitality, complimentary guest canoes and a variety of shorter and full day guided rainforest and seacoast walks (including birdwatching).

Specific birdlife includes Fiordland crested penguin, NZ pigeon, NZ falcon, tui and fernbird (total 76 bird species in area).
The Oamaru Blue Penguin Colony provides you with the perfect opportunity to watch blue penguins as they rest in their burrows during the day or as they return from a busy day at sea. During the day you will see them in a specially-designed building where you can look down into some of their nests.

Then as dark approaches you will see them arrive on the beach, climb the steep rocks and make their way to their burrows. All this, only a few minutes from Oamaru town centre by car. Oamaru is the easiest place in New Zealand for people to view good numbers of blue penguins up close. The penguins may be viewed every day at nightfall, and the time of arrival on shore varies with the season. There is a charge for admission to support conservation, management and research at the colony. Viewing is from a covered stand overlooking the foreshore and colony. There is a modern visitor centre with informative displays and shop.

Photography is not allowed during the evening and only allowed outside without flash during the day.

Open 7 days a week from 10am.
Discover Korora, the little blue penguin...

Visit the Little Blue Penguin colony at Taiaroa Head, Dunedin. Your tour will begin with an informative story about the cultural and social significance of the Pukekura area. You will then enter the Penguin conservation area to view the endearing Little Blue Penguins - the world’s smallest penguin. From the viewing platform you are able to watch them scurrying up the beach to their cliff-face burrows after a day out at sea. The conservation area is scattered with nest boxes and the area is predator controlled, which allows young birds to flourish for your benefit.

Tours run every evening from the Royal Albatross Centre on the picturesque Otago Peninsula. There is a souvenir shop and cafe on site to ensure your visit is complete.

75 minutes - Tour begins at dusk every evening.

See Blue Penguins - Returning to nest in their natural habitat.

Cultural Experience - Discover the historical significance of Pukekura.

Reservations Recommended
Daily small-group tours or private exclusive birdwatching/photographic expeditions by request.

Find out why overseas visitors and birders have described this wildlife experience as the highlight of their visit to New Zealand. Absolutely unrivalled, up close viewing of many marine and wading species plus royal albatross at Taiaroa headland and yellow-eyed and blue penguins within our exclusive conservation reserve in a beautiful beach location.

Within this conservation area, at the extreme eastern edge of the peninsula, you can observe many species of albatross plus many pelagic seabird species flying in close proximity. We provide options to experience a royal albatross tour or include a boat cruise to add further viewing opportunities to this unique experience.

‘Peninsula encounters’ tours depart from Dunedin City accommodation or the Dunedin visitor centre during the afternoon and return in the evening around six hours later.

Multi-day expeditions of the southern coastline can be arranged on request.
From the water is the natural way to see the world’s only mainland breeding colony of albatross (northern royal) at Taiaroa Head. Just offshore you can see more albatross species along with petrels, shearwaters and other birds. Nesting seabirds include blue penguins, sooty shearwaters, gulls (2 species), shags (3 species), and white-fronted terns. NZ fur-seals breed here, and you might see NZ sea-lions, Hector’s dolphins and dusky dolphins. Harbour and inlets support resident and migratory wading and water birds.

Wildlife cruises (60 or 90min) depart Weller’s Rock on Otago Peninsula. Half and full day tours depart Dunedin and include the wildlife cruise and a harbour cruise, with optional land tours on Otago Peninsula – yellow-eyed penguin reserve, Royal Albatross Centre and Larnach Castle.

Two new options are a Sundowner Package with wildlife cruise, albatross tour, dinner and blue penguin viewing; and a private Southern Nature Photo Safari.
Orokonui Ecosanctuary is a 307ha fenced nature reserve providing predator free habitat for the conservation of endangered wildlife.

The Ecosanctuary provides for observation in the wild of particularly South Island subspecies and those of the Coastal Otago region including kaka, robin (pictured), Haast tokoeka kiwi (pictured), fernbird, rifleman, grey warbler, tomtit, brown creeper, tui, NZ pigeon, bellbird, silvereye, fantail and NZ falcon.

Just 20 kilometres north of Dunedin, Orokonui Ecosanctuary is a forest based experience which complements the marine wildlife for which the region is famous.

The Ecosanctuary is open 9.30am - 4.30pm seven days a week. Daily tours with friendly, knowledgeable guides and self-guided walking are available.
Penguin Place is a private conservation effort to save one of the world’s most endangered penguins from extinction and is funded entirely by our guided tours.

We offer visitors the opportunity to visit a working conservation programme. To experience and photograph undisturbed activity at close range through a unique system of trenches and viewing hides. With visitors’ support we are able to restore habitat, control predators, undertake a research programme and rehabilitate the sick, starving and wounded.

Penguin Place is open all year round and each tour is 90 minutes in duration. Participants need to be comfortable on their feet and be equipped with suitable footwear and warm clothing.
The Royal Albatross

Albatrosses are the world’s largest seabirds. They normally breed on remote islands and spend at least 85 percent of their lives at sea, well away from land and human view. Dunedin’s Taiaroa Head is the only mainland Royal Albatross breeding colony in the world.

Our premium tour is the best way to experience Pukekura (Taiaroa Head), its history and wildlife. The fully guided tour includes a short film on the Albatross and the history of Taiaroa Head, followed by a visit to the viewing observatory to see nesting Albatross in their natural habitat. Visit the fortifications with commentary on the Maori and European history of this fascinating area.

In partnership with Monarch Wildlife Tours we now offer the Sundowner Package with wildlife cruise, albatross tour, dinner and blue penguin viewing. Reservations Essential.
Lake Cruise & Island Nature Walk  4 hours (1 hour walking).
Cruise to introduced predator free Mou Waho Island. This reserve is home to bellbirds, tomtit, NZ pigeon, falcon and the flightless buff weka which are thriving here (extinct on mainland NZ since 1920).
This island has a secret – a lake on top! Here the panorama of the Southern Alps at our “High Tea” spot is unique & very photogenic. We plant a native tree on every trip to the island – a “Hands On” eco-experience.

Rob Roy Glacier Guided Trek  Full day (4 hours moderate walk).
The most varied one day walk in New Zealand! Crossing the swing bridge we enter the rainforest habitat for bellbirds, riflemen and tomtit. Lunch in the alpine herb fields home to the kea, NZ’s alpine parrot, and where spectacular icefalls may be observed.

Alpine Lakes Heli Hike  4 hours (easy to moderate options).
Three pristine emerald lakes 1400m up – views of Mt Aspiring from this World Heritage area, home of kea and rock wren.

It’s a unique journey that will be different for everyone and might include some of New Zealand’s rarest birds. The trip might also include seals, resident dolphins and at certain times of the year – the Fiordland Crested penguin, the Little Blue penguin and Humpback whales. Your Discovery Expedition is onboard our purpose built Milford Wanderer with all the modern comforts and fully catered sumptuous meals. Discovery Expeditions are available in five and seven day itineraries and include heli-transfer options. We also venture further south to Stewart Island with a six day itinerary.

For more information visit
www.discoveryexpeditions.co.nz
Other forest birds including morepork (native owl), rifleman and yellow-crown parakeet (kakariki) are present in high numbers throughout the valley. Rare species such as the rock-wren and blue duck can be seen nearby.

Knobs Flat Accommodation offers six fully self-contained units as well as a small campsite within the national park. Whether you choose to camp on the forest edge, or enjoy spectacular vistas from the comforts of your unit, access to the forest, riverbed and local walking tracks are only a few minutes away.

We offer customised tours, or you can explore the area independently.
Stewart Island is a magical destination for all birders and nature lovers.

Enjoy the very best of the Island with Sails Ashore Boutique Lodge (4 star plus), Sails Tours and Kowhai Lane Lodge (4 star).

Your hosts Iris and Peter bring to your visit over 70 years combined Island life. This starting with Peters appointment as Ranger in Charge and saw Iris’s love of the Island recognised as a foundation Trustee of Ulva Island Open Sanctuary. Sails Ashore is the only owner hosted 4 star plus accommodation on the Island, and with just two guest rooms we have time to spend with our guests.

Our Ulva tour allows our guests a leisurely 4 hours to discover just why Ulva is world renowned. In addition we can organise pelagic birding and kiwi watching. There is so much to see and do that we suggest you check out our web site.
Half day trips to Wreck Reef provide wonderful viewing opportunities for many uncommon species including mottled petrels and many albatross species. Our South Cape trip travels further south in one day than any other birding company in New Zealand. Join us on Aurora, a comfortable 18m catamaran and let our expert bird guides help you capture the photographs of a lifetime.

Enquire about our Birding Bonanza day in conjunction with Ulva’s Guided Walks.

Offering one of the most spectacular pelagic birding trips in New Zealand, Aurora Charters operates out of Halfmoon Bay, Stewart Island.
Discover Stewart Island’s remarkable land and sea birds up close and personal, in comfort and style on board our new, modern vessels.

We offer a wide range of comprehensive birding tours utilising the island’s most experienced guides.

PELAGIC BIRD TOUR: View striking albatross, yellow-eyed penguins, terns, Fiordland crested and little blue penguins, petrels and many more of Stewart Island’s stunning ocean birds at close quarters. Catering for small groups, our tours are highly personalised with full commentary from your experienced and knowledgeable skipper, as well as fresh cake and coffee.

ULVA ISLAND BIRD SANCTUARY: On demand water taxi service including full historic commentary, guided or self-guided walks through this primeval forest, view rare birds such as Stewart Island robin, yellowhead, saddleback, kakariki and rifleman.

LAND & SEABIRD PACKAGE: Combine the above to make a day of it, optional evening Kiwi Watch to make this Stewart Island’s most comprehensive birding package.

MASON’S BAY: Kiwi Spotting on our popular fly-walk-boat experience, the Coast to Coast.

Furhana (BSc. Hons. Geography), shares over 23 years of local knowledge to enrich your birding and natural history experience on land or at sea. Operating since 2000 - highly recommended on Trip Advisor. Choose from the widest range of tours offered directly by any Stewart Island operator from guided tours or independent options, photography tours and customised packages.

ULVA ISLAND BIRDS & FOREST: Enjoy close encounters, exquisite鸟鸣 with excellent, in-depth commentary during your guided walk through Ulva Island’s beautiful primeval rainforest. Saddleback, yellowhead, red and yellow-crowned parakeet, rifleman, robin, weka, kaka, brown creeper and more. (1/2 or full day).

KIWI JOURNEY/KIWI, DUNES & BEACH: Search for kiwi in natural habitat at Mason Bay. 95% success with over 85% thrilling, daytime sightings of kiwi. Other birds include: fernbird, robin, parakeet, brown creeper, pipit, NZ dotterel. (2 or 3 days).

EVENING ECO WATCH/KIWI SPOTTING: Following our fascinating introductory talk on kiwi, we guide you on our night walk in search of this highly intriguing bird. (3 hrs).

AIHE PELAGIC BIRDING: For surprisingly close viewing, superb photography and excellent information on albatross, petrel, shearwaters, Fiordland crested/yellow-eyed/blue penguins, cormorants, skua, terns and more along with seals and occasional dolphins choose our pelagic birding experience. (3 hrs).

See our websites for our full range of options.
BEAUTIFUL BIRDING AND BOTANY

Ulva’s Guided Walks has an international reputation of birding and natural history specialists — our local guides have a superb history of their own, take time to ask them while you are here! Our birding expertise covers all birding activities of Stewart Island but Ulva Island Bird Sanctuary is our specialty. Ulva’s Guided Walks is owned by Ulva Goodwillie, and yes, she was named after Ulva Island…

BIRDING BONANZA

We guarantee an extraordinary birding experience. The morning is spent on Ulva Island with forest birds. Your afternoon is a smorgasbord of seabirds! Our pelagic charter vessel always gives you close proximity to our magnificent pelagic species; albatross, shearwaters, petrels, terns and many more. The evening is a twilight KIWI SPOTTING guided walk.
